#### a) FAIR RACING - COLLABORATION WITH THE ORC

- Continue collaboration with ORC on the handicap rule (ORCsy). Allocate appropriate resources as funding permits (personnel and technical input) to positively impact fair racing and superyacht handicapping:
  - Continuing to liaise with member Event Organizers and yacht owners regarding rule policy (including deadlines, race documents, etc.);
  - Continue to provide technical input and oversight to ORC on the evolving VPP and input on rule policy (as funding permits);
  - Assist ORC at major regattas in obtaining pertinent race information - conditions, race tracking, identifying anomalies, etc.
  - Encourage SYRA constituents to obtain official ORC measurement at the earliest opportunity;
  - Pursue additional funding from industry related companies and organizers who have not yet contributed, and yacht owners;
  - Convene a Fair Sailing Committee(s) on specific aspects of the rule and VPP if deemed appropriate and useful by both the ORC and SYRA.
